

Tom Hubbard Cycles for Brain Tumour Charity

Tom and a group of colleagues from Parker Design Consultants will be cycling 210 miles from London to Northwich to raise money for the Brain Tumour Charity between the 22nd and 24th of September. The motivation for the challenge was to support Tom's friend and colleague Jim Harwood who underwent surgery to remove a brain tumour in 2013 and again in 2015. Jim will be taking part in the ride which also celebrates Parker Design's 21st birthday.

Jim and Tom will be accompanied by 13 colleagues ranging from experienced cyclists to novices. The ride will start at Parker Design's London office in Farringdon with overnight stops in Northampton and Burton on Trent and end at their head office in Lostock Gralam.

The team's objective is to raise £21,000 for the Brain Tumour Charity and they are currently nearing 40% of their target. If you know Tom and would like to support him and the team please follow the Just Giving link below.
